## MRS. STILLMAN WINS FAMOUS DIVORCE CASE

Referee In Salacious New York Society Case Gives Judgment In Her Favor

(By Associated Press)  
Carmel, N. Y., Sept. 29.—James A. Stillman, former president of the National City Bank, was denied a decree in his suit for absolute divorce against his wife, Anne U. Stillman. Guy Stillman is declared legitimate in the findings of Laniel J. Gleason, referee in the case which was filed here today. The referee's decision is a complete victory for Mrs. Stillman. Not only was her defense upheld but the referee also confirmed her charges that Mr. Stillman miscondemned himself with Florence H. Leeds, a former Broadway show girl, and that she bore two children. The referee wrote that Stillman's testimony that Mrs. Stillman miscondemned herself with Fred Beauvais, a part Indian, guide, who was alleged by Stillman to be the father of little Guy Stillman, "uncontradicted and unexplained was sufficient to justify him in the belief Mrs. Stillman was guilty of the charges made against her. Careful examination, however, of all the testimony," said the referee, "has shaken my faith and belief in the testimony of the witnesses called in the plaintiff's behalf."  
Attorneys for Stillman declined to say if they would appeal from the referee's findings.  
Through his mother's victory, Guy Stillman retains his rights as an heir with his two brothers and sister to the \$6,000,000 trust fund created for them by their grandfather, the late James Stillman.

## AL SMITH MAY WIN OVER SMITH

(By Associated Press)  
Syracuse, N. Y., Sept. 29.—Upstate leaders who have been fighting for Alfred E. Smith to head the New York state ticket at the November election, were claiming victory at the state Democratic convention opening today. Conferences between them and Charles F. Murphy continued the accustomed silence but leaders in the Tammany leader's confidence said the demand for Smith's nomination prevailed. The decision is attributed to Smith's followers that their candidate would not run on a ticket with William R. Hearst and is interpreted to mean that the selection of a candidate for United States Senator is still an open issue.

## TANDY ELLIS ALWAYS PLEASES AUDIENCES

One of the most interesting and pleasing entertainments here in a long time will be that which Gen. James Tandy Ellis will give for the benefit of the disabled soldiers' fund at the courthouse on the evening of Oct. 6. The committee in charge from the local Legion is Messrs. Turley, Dunbar and Norman.

The entertainment which Gen. Ellis puts on has received the highest and most flattering notices from the press to make with him the best musical talent, and has built around his own performance a beautiful setting of attractions, and has not lost sight of any details to make this, his conception of an evening's entertainment, one of delightful interest.

Gen. Ellis appears in monolog in the first part, with original stories, poems and using piano at short intervals. He is well known as an originator of humorous stories and narratives of quaint lore.  
In the second part he produces his celebrated original sermon, "De Parable Uy De Mouse," which has been pronounced one of the greatest hits of the time. He has given many years of study to the old-time darkey, and his make-up and delivery of the old fashioned sermon is rich in fun. He uses banjo with the old hymns and songs, interspersing these with stories of humor and fun.

General Ellis is well known in Kentucky as a story teller and writer of humor. He is the author of "Shawn O' Sharrow," a novel of the Ohio river, "Kentucky Stories," "Sprigs O' Mint," and other books. He has now a novel in the press, "Sycamore Bend," which brings back the old time humor and customs of the older days. He was a student at Conservatory of Music, Cincinnati. He is an accomplished musician.

He was adjutant general of Kentucky for eight years, being first appointed by Governor James B. McCreary. He is a Mason, Elk, Knights of Pythias, Maccabees and Red Men.  
Miss Mildred Schirmer, who will accompany the troupe, is an accomplished pianist and violinist, being a student of Conservatory of Music of Louisville, for several years.

Little Jerry Walker, in evening dress, 11 years of age, is a most wonderful attraction, his singing of popular songs always bringing down the house.

## HEAVY RAINS HAVE HELPED LATE CROPS

Crop conditions for the week as surveyed by the U. S. Department of Agriculture Bureau at Louisville are reported as follows: Moderate to heavy rains over most of the State the first of the week caused improvement in such of the late crops as had not matured. The greatest improvement was in late potatoes, which are fair to good in districts near the larger cities. The growth of potatoes has been so delayed by drought, that a considerable part of crop will need three weeks yet for maturing.

There was also improvement in late corn and tobacco in the northern counties, where the condition of these crops is fairly good. They have generally matured in the southern counties, where most of the tobacco has been housed and corn cutting is far advanced. There is considerable tobacco still in the field in the northern burly district. The weather continued favorable for curing tobacco, and for drying corn in shock; also for harvesting cowpeas and alfalfa hay, which is nearly completed. The quality of this late hay is generally excellent but the yield was curtailed by the dry weather.

Good progress was made in filling silos. Grass started by the rains and pastures are somewhat better, but more rain is needed in all sections, especially the hilly districts. Plowing and preparing soil for fall seeding made fair progress; but the ground is still too dry in many localities. Further rain is needed at once to prevent this work from being unduly delayed. Some rye, sown for a crop, is coming up since the rains. Very little wheat has been sown as yet. Gathering and continue under favorable weather conditions.

## WESLEYAN IS READY FOR NORMAL GAME

A number of local fans will go to Winchester to see Eastern play Kentucky Wesleyan there Saturday. Eastern's squad is showing up in fine shape in preliminary work. The Sun has this to say of the Wesleyan eleven:  
Several of the men are out of the scrimmage due to the hard practice of last Saturday.

This necessitated a rearrangement of the lineup for this coming Saturday when Wesleyan goes up against Normal. The Normal team is made up of heavy men who have been working out at the Boonesboro Beach for a week. They are in good condition and are going to try to break the tie of last year.

The changes made in the lineup of the Varsity bring Foster Johnson to center, Henry Johnson to end, Heier to tackle and Big Dudley to guard. With the addition of House and McCourt to the lineup, Wesleyan stands ready to give the big red team a good beating.

Thirty men were out Tuesday for the scrimmage and others are ready to get into the game if equipment can be found. Secretary Kingsbury will referee and Mr. Scott, of Paris, will umpire. The game will be called promptly at three on the college campus and a good crowd is expected to see the local boys put over their first winner.

One change in this year's rules requires that a team making a touchdown, which counts six points, be given a chance to make the other point by placing the ball on the five yard line and by a rush, kick or forward pass, put it over the goal line or over the bars. They are given only one play and failing at this the ball is put in play at the sixty yard line as at the beginning of the game.

## Criminals Identified By Breath Left In Air

Paris, Sept. 20.(by mail).—Analysis of air breathed by criminals is the newest aid to the French police in identifying them. They scientifically examine the suspect and know positively whether he breathed in that room. If the man expectorated, he might as well have left his visiting card.

The machine which does this work is part of a crime detector system shown to Police Commissioner Enright of New York City recently in Paris.

A spectroscopic takes a section of the air for analysis. Every person has his distinctive heat. The spectroscopic can detect the light radiating from a given person and the machine can reveal if that person passed through a room at a given moment. Whether the person was excited also will be recorder.
